

Materials Innovation and Recycling Authority
Regular Board of Directors
Supplemental Information
November 13, 2019

I. Finance

Informational Reports for period ending September 30, 2019 (*Attachment A*).

CSWS Financials	CSWS Improvement Fund
CSWS Electricity	Property Division Financials
CSWS Solid Waste Summary	MIRA Cash Flow
CSWS Recycling Summaries	Authority Budget

II. Summary of Project Activities

1. An update is provided on each project's monthly operations for the periods ending September 30, 2019 (*Attachment B*).
2. An update is provided on waste deliveries to all projects for the periods ending September 30, 2019 (*Attachment C*).

III. Communications

1. Legal Expenditure Report FY'19 (*Attachment D*).

TAB A

CSWS Financials - This report reflects the budget versus actual financial performance of the CSWS for the current month and on a year to date basis. This is an accrual basis report in that revenues are recognized when earned and expenses are recognized when incurred.

As indicated in this report, total operating revenue for September was \$5.27 million (7% below budget). There were deficits in all categories of waste delivery, metal and electricity sales which were partially offset by surplus other energy market revenues. The surplus in other energy market revenue is associated with Class II REC sales for second quarter 2019 energy generation. Year to date, two full quarters of REC sales have been recognized. Total Accrued Expenditures for September were \$4.29 million (4% under budget). Year to date the CSWS has generated operating income of \$1.98 million which is 43.3% below budget (before Prior Year Cost Recovery).

CSWS Electricity - This report reflects CSWS budget versus actual electricity production, revenue and price for the current month and year to date. Energy revenue reconciles to CSWS Financials. **Effective April 1, 2019 through March 31, 2020 a new energy contract is effective for CSWS energy.** The first 20 MW of CSWS energy is sold under fixed contract at the rate of \$.03911 / Kwh (up from \$.03527). Remaining energy is sold in the wholesale energy market.

As indicated in this report, CSWS total average energy price including hedged and wholesale prices was \$0.0315 per kwh in September which is \$0.0058 per kwh (15.5%) under budget. Year to date energy price is 8.4% under budget. The CSWS generated 22.07 million Kwh of energy in September which was 1.73 million Kwh (7.3%) under budget. The plant ran at full capacity for 8 out of 30 days. Overall boiler availability was 72.5%. Boiler 11 was off line for just 33.08 hours (95.4% availability) due to an ID fan trip and to commence a scheduled outage on September 30. Boiler 12 was off line for a total of 163.35 hours (77.3% availability) due to an SSC derail, tube leaks, a failed relay, Xfer belt failure and to accommodate a one-turbine operation. Boiler 13 was off line for a total of 398.04 hours (44.7% availability) due to clinkers, tube leaks, casing leaks, bag house cleaning, ash transfer belt failure, auxiliary systems work and ID fan issues. Turbine 5 was offline during four days primarily to accommodate one-boiler operations. Turbine 6 was off line during two days for control linkage repair and to accommodate a one-boiler operation. On a year to date basis, in comparison to this period of fiscal year 2019, energy price is down 8%, production is down 1% and revenue is down 9%.

CSWS Solid Waste Summary - This report reflects the budget versus actual MSW tons delivered, revenue and price per ton for member towns, other contracts, waste haulers and spot.

September deliveries totaled 41,227 tons which is 7,096 tons (14.7%) under budget. Member town deliveries were 2,867 tons (8%) under budget while non-participating deliveries were 4,229 tons (36%) under budget following an end to the previously declared impairment. Prices for waste hauler tons averaged \$86.69 per ton in September reflecting the adopted \$4.00 per ton surcharge on non-participating town deliveries to transfer stations and \$2.00 per ton adopted surcharge on non-participating town direct deliveries. Price and delivery volume by contract type combine to produce total solid waste delivery revenue presently 15.5% under budget on a year to date basis.

CSWS Recycling Summary - This report reflects current month and year to date recyclable tons delivered to and exported from the CSWS recycling center including the rate per ton and corresponding revenue reconciled to CSWS financials. Deliveries and exports are stated in terms relevant to the contract operation of this facility.

Total recycling facility revenues were 5% under budget in September. FCR delivery revenue was 7.9% above budget due to surplus paid residue and surplus deliveries of CSWS - sourced single stream recycling. FCR export revenue was 73.3% below budget due to the absence of revenue shares for CSWS-sourced ONP and OCC and a very low share on containers. There were no reported exports of FCR-sourced material in September, or on a year to date basis. Authority surcharges for delivery of non-participating recycling were 7% above budget in September, and 10% above budget year to date. Year to date total recycling facility revenues are 3% under budget. As indicated separately on the metal sales report, metal sales and excess residue revenue was 35% under budget in September due to a drop in metals pricing. The average per ton price in September was \$40.32 which is \$28.46 per ton (41%) under budget.

Property Division Financials - This report reflects the budget versus actual financial performance of the Authority's Property Division for the current month and on a year to date basis. This is an accrual basis report in that revenues are recognized when earned and expenses are recognized when incurred irrespective of the timing of cash receipts or payments.

As indicated, revenue to the Property Division was 6.9% above budget in September due to activity in the reserve markets and interest earnings. Operating expenses were 57.1% under budget due to lower than expected monthly jets operating charges. Total operating income is 14.1% above budget year to date.

MIRA Cash Flow - This "cash basis" report reflects the monthly flow of cash through the bank accounts and STIF reserve funds that represent all of the Authority's ongoing operations. The flow of funds is executed monthly in accordance with Board-approved criteria.

As indicated in this report, Property Division cash receipts for September were sufficient to distribute \$1,000,462 to the Tip Fee Stabilization Fund. Year to date distributions to the Tip Fee Stabilization Fund are \$3,926,067 in comparison to maximum authorized distributions of \$8,700,000. CSWS cash receipts were not sufficient to execute budgeted distributions to the CSWS Operating STIF and Improvement Fund, currently elevated due to the planned outage schedule, causing a \$3,100,958 draw from the Tip Fee Stabilization Fund. After the distribution of September receipts, \$46,821,617 remained contingently due to the Tip Fee Stabilization Fund from CSWS.

CSWS Improvement Fund - This report reflects budget versus actual CSWS Improvement Fund advances to the operator of the Resource Recovery Facility for major maintenance and capital improvement projects approved monthly by the Authority. Actual costs initially reflect funds advanced which are subsequently adjusted when the project is completed. In September, the Authority advanced \$1,451,718 to NAES primarily for conveyor, boiler and turbine major maintenance. Additional advances relate to transfer station project engineering.

Segmented Income Statements - This report reflects the revenues and expenses of each Authority project and division in the format ultimately to appear in its annual independent audit report. This includes a summary reconciliation to budget versus actual report formats.

Mark T. Daley, Chief Financial Officer

Ending balances include the fund transfers represented on this flow of funds as a distribution. Excludes receipt of customer security deposits / guarantees of payment and Mid-Connecticut reserves not subject to disbursement or funding in accordance with adopted flow of funds. The CSWS Operating STIF account was short funded by \$223,418.26 due to a shortfall from cash receipts and a lack of unencumbered funds in the CSWS Tip Fee Stabilization reserve. YTD the CSWS Operating Fund has been short funded by \$223,418.26. YTD \$791,665 in budgeted CSWS operating fund distributions represents prior year cost recovery of turbine failure expenses. **After the distribution of September receipts, \$46,821,616.97 remained due to the Tip Fee Stabilization Fund from CSWS. YTD \$3,926,067.25 has been contributed to the CSWS Tip Fee Stabilization reserve.**

YTD VARIANCE EXPLANATION

(a) Favorable due to lower than budgeted direct and indirect labor & benefits allocation due to vacancies and restructuring of positions associated with departure of employees.

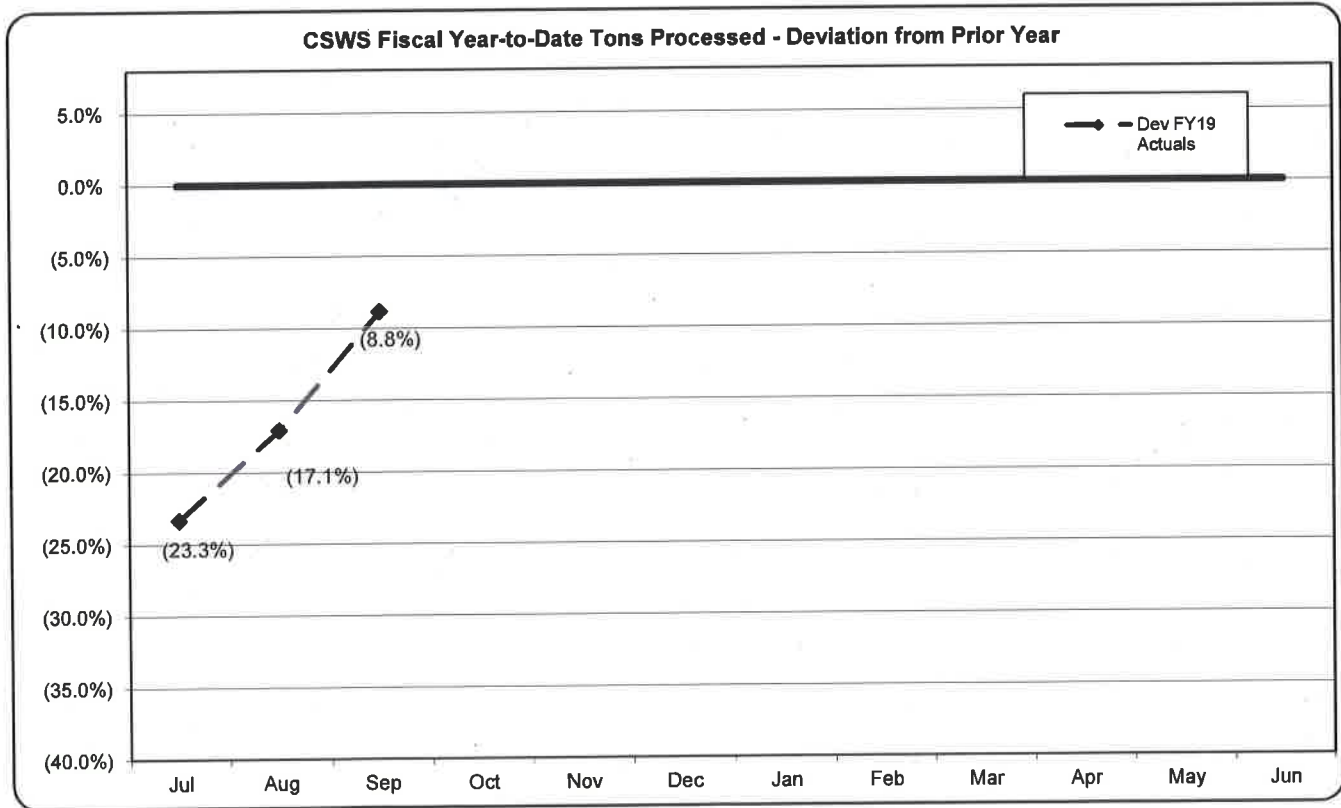

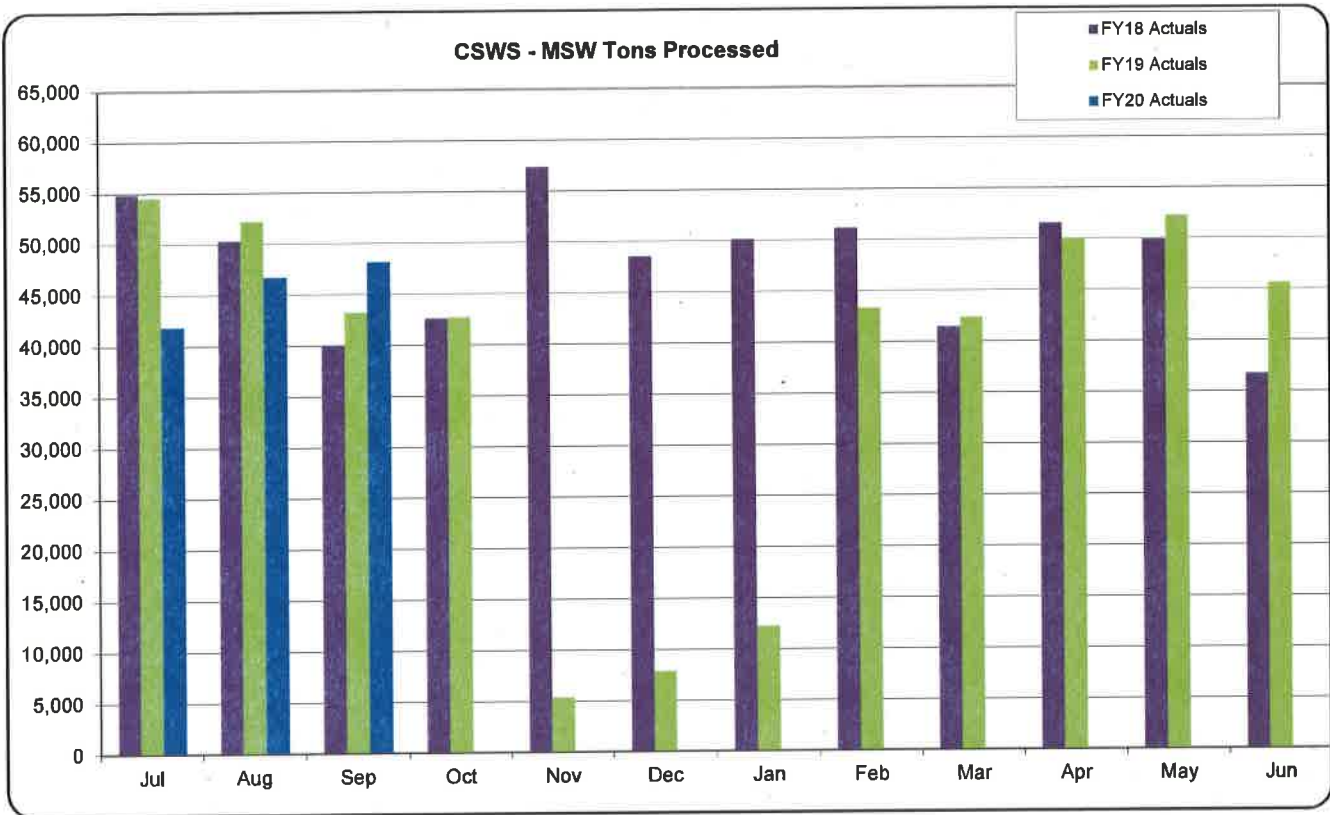

* Favorable due to timing of legal and other consulting fees; On 06/21/19, the BOD approved a budget of \$300k for legal fees and other expenses to be funded using funds from the Landfill Division. On 08/14/19, the BOD approved an additional funding of \$365,900.00 for engineering consulting services, which increased the total budget to \$665,900.00 for FY20.
