

BOARD OF DIRECTORS FINANCIAL REPORT
PERIOD ENDING March 31, 2023

<u>CSWS Financials</u> - This report reflects the budget versus actual financial performance of the CSWS for the current month and on a year to date basis. This is an accrual basis report in that revenues are recognized when earned and expenses are recognized when incurred.

As indicated in this report, operating revenues for March totaled \$0.88 million (26.2% above budget). The deficit in member town deliveries was more than offset by surplus other energy market revenues and interest income. Year to date revenues are \$2.30 million (22.0%) under budget due to the early shut down of the Waste to Energy Facility. Accrued expenditures for March totaled \$1.37 million (10.0% above budget) primarily due the deficit in MIRA facility operating expense. Year to date total accrued expenditures are 13.2% under budget. Year to date the CSWS has incurred an operating loss of \$5.78 million which is \$0.19 million (3.4%) above budget. The Authority's Transition Contingency Reserve, included in the Major Maintenance Fund, adequately supports the shortfall in income driven by the early shut down and ongoing deficits in member deliveries.

<u>CSWS Electricity</u> - The CSWS no longer produces electricity. All of its energy sales revenue is derived from Renewable Energy Credits (RECs) "minted" by the Department of Energy and Environmental Protection quarterly in arrears, and through annual and monthly reconfiguration auctions conducted by ISO New England which the Authority participates in to satisfy the Waste to Energy Facility capacity supply obligations it has incurred through May 2024.

Electricity generated by the CSWS in July 2022 was minted into 8,830 RECs in January 2023. These RECs sold at a market price of \$21.66 resulting in \$191,258 in REC Revenue recognized in March. These are the final CSWS RECs. The additional \$130,921 in other energy market revenue in March is net capacity payments from participation in reconfiguration auctions to satisfy remaining capacity supply obligations. Year to date other energy market revenue is 29.8% above budget.

<u>CSWS Solid Waste Summary</u> - This report reflects the budget versus actual MSW tons delivered, revenue and price per ton for member towns, other contracts, waste haulers and spot.

March deliveries totaled 4,271 tons which is 1,854 tons (30.3%) below budget. All deliveries from August through the end of fiscal year 2023 are budgeted as member town deliveries. The deficit in Member Town deliveries has been reviewed, initial causes identified and corrective actions have commenced. The Authority anticipated improvement in member deliveries commencing in November which did not occur. The Authority has meet with DEEP concerning its request for flow control enforcement assistance and has followed up with additional information as DEEP requested. Alternative enforcement measures are being pursued.

<u>CSWS Recycling Summary</u> - This report reflects current month and year to date accrued revenue and expense associated with CSWS recycling operations stated in terms relevant to the Authority's waste hauler agreements, transfer station and Recycling Facility operating contracts.

As indicated in the summary report, 0 tons of non-participating recycling were delivered and 0 tons were budgeted. Operating expenses totaled \$167,907 for participating town deliveries which is 15.8% above budget for March due to a reduction in commodity pricing that puts upward pressure on the Authority's Base Operating Charge. Above budget deliveries to Essex also resulted in a deficit in recycling transportation expense. Operating expenses include transportation from the CSWS transfer stations as detailed on the Recycling Transportation Report, Recycling Facility contract operating charges as detailed on the Recycling Contract Operating Report, Authority direct O&M expenses and Recycling Facility residue charges. Operating expenses are 16.6% above budget year to date.

BOARD OF DIRECTORS FINANCIAL REPORT PERIOD ENDING March 31, 2023

<u>CSWS Metals Sales</u> - This report reflects budget versus actual sales of post combustion ferrous metals and maintenance metals stated in terms relevant to the Authority's metals transportation and processing contract.

In March, the Authority sold 0 gross tons of post combustion ferrous and 0 gross tons of maintenance metals for total revenue of \$0. No sales were budgeted for March. Metal sales are 160.1% above budget year to date. Beginning in fiscal year 2022, the Authority stopped directly selling pre-combustion ferrous metals. This material was transported for processing and remarketing and the waste transportation expense included within CSWS Waste Transportation. Post combustion ferrous sales activity ended with the shut down of the WTE Facility. Sales of maintenance metals may continue.

<u>Property Division Financials</u> - This report reflects the budget versus actual financial performance of the Property Division for the current month and on a year to date basis. This is an accrual basis report in that revenues are recognized when earned and expenses are recognized when incurred.

As indicated, revenue to the Property Division was 26.9% above budget in March due to surplus capacity, reserve and interest revenue. Operating expenses were 52.5% under budget due to savings in operational contingency budgeted for the period February to June. Total operating income is 60.9% above budget year to date.

<u>MIRA Cash Flow</u> - This "cash basis" report reflects the monthly flow of cash through the bank accounts and STIF reserve funds that represent all of the Authority's ongoing operations. The flow of funds is executed monthly in accordance with Board approved criteria.

Property Division cash receipts for March were sufficient to distribute \$351,116 to the Property Division General Fund. Year to date distributions to the Tip Fee Stabilization Fund previously reached the authorized cap of \$3,811,000. CSWS cash receipts were not sufficient to execute budgeted distributions to the CSWS Operating and Major Maintenance funds causing a draw of \$390,472 from the Tip Fee Stabilization Fund. After the distribution of March receipts, \$60,090,968 remained contingently due to the Tip Fee Stabilization Fund from CSWS.

Major Maintenance Fund - This report reflects budget versus actual funds advanced or expended for major maintenance and capital improvement projects approved by the Authority. At its February 23, 2022 meeting, the Authority authorized management to establish a project for scale system replacement at the CSWS transfer stations in the amount of \$600,000 funded through surplus Major Maintenance Funds. As shown on this report, the Authority has expended \$299,026 through March 31, 2023 for the scale replacement projects.

Transition Contingency Reserve - This \$3,565,000 reserve is part of the Major Maintenance Fund. It was funded from July through October as shown on CSWS Financials. Use of the reserve was authorized for WTE Facility contractor severance budgeted at \$2,000,000. Actual payments for 71 contract employees is \$1,694,051 as shown on the Major Maintenance Fund report. One additional employee remains to be paid. The Authority estimates WTE contractor severance will be conclude \$285,000 below the \$2,000,000 authorization. Use of the reserve was subsequently authorized for security and technical support budgeted at \$112,500. This authorization is now allocated in the reserve. Security & technical support services in the amount of \$12,325 were paid in March.

<u>Decommissioning Funds</u> - The Authority's Decommissioning Reserve has been funded and established for financial reporting purposes and closure expenditures are pending approval of a closure plan by DEEP and contracting activity by the Authority. In November, the Authority authorized \$40,000 for consultant response to DEEP comments on the Authority's closure plan. \$17,735 has been expended year to date for this purpose.

Mark T. Daley, Chief Financial Officer

- Ending balances include the fund transfers represented on this flow of funds as a distribution. Excludes receipt of customer security deposits /guarantees of payment and Mid-Connecticut reserves not subject to disbursement or funding in accordance with adopted flow of funds.
- Decommissioning Reserve of \$3.3 million was established pursuant to Board resolution. Interest earnings are being retained in the reserve account.
- FY23 YTD contribution to the CSWS Tip Fee Stabilization Reserve totaled \$3,811,00.00 in support of the FY23 Adopted Property Division Budget.
- FY23 YTD CSWS draws from the CSWS Tip Fee Stabilization Reserve is \$3,131,947.31 in support of the FY23 Adopted CSWS Budget.
- After the distribution of March cash receipts, a total of \$60,090,967.92 remained due to the Tip Fee Stabilization Reserve from the CSWS.
- Adjustements reflect funding correction for the paid NAES legal invoices that were paid from reserve.
